

ABHAY BATHAM

UI/UX Designer

abhaydesigner999@gmail.com | +91 9770362089 | [LinkedIn](#) | [Behance](#)

SUMMARY

UI/UX Designer specialising in research-driven product design and AI-integrated workflows. Designed Beacon — an end to end AI powered career networking app built on the Claude API. Experienced across mobile apps, SaaS dashboards, and consumer products. I use AI not to skip the thinking but to sharpen it.

SKILLS

Design Tools: Figma, Adobe XD, Adobe Photoshop, Illustrator, Google Stitch

UX Methods: User Research, Usability Testing, Wireframing, Prototyping, User Flows

AI Workflows: Claude API, Prompt Engineering, AI-assisted Design, Rapid Iteration

PROJECTS

Beacon — AI Career Networking App

Designed end to end mobile app for first-generation professionals navigating the hidden job market. Three AI powered features built on Claude API — Daily Mission Board, Message Lab, and The Playbook. Full UX research, user flows, 19+ screens, and prompt architecture.

Schedule Management Tool — SaaS Web App

Designed web dashboard for a SaaS platform used by admins, engineers, and clients to manage survey projects. Focused on task organisation, real-time progress tracking, and multi-role user flows.

FurniElite — Furniture App with AR

Designed mobile app allowing users to browse and visualise furniture in their own space using augmented reality. End to end screens from onboarding to AR placement and checkout.

Google Pay — UI Redesign

Redesigned Google Pay to simplify navigation, reposition key features, and improve visual consistency across home, profile, transaction, and settings screens.

WORK EXPERIENCE

Euron, Remote: UI/UX Designer

2026

- Designed user interfaces and layouts for web products using AI-assisted design tools.
- Used AI tools to accelerate ideation, layout generation, and design iterations.

Kalpas Innovation Pvt. Ltd., Remote: UI/UX Design Intern

Jun 2025 - Oct 2025

- Designed the interface for a web-based schedule management SaaS platform improving usability and visual consistency.
- Created user flows, wireframes, and interactive prototypes to enhance task organisation and collaboration.
- Collaborated with developers to ensure accurate implementation of UI components and design systems.

Zidio Development, Remote: UI/UX Design Intern

Apr 2024 - Jun 2024

- Designed intuitive interfaces and interactive prototypes for two mobile app projects.
- Collaborated with developers to ensure seamless integration of design features.
